

WELCOME MESSAGE (Armed Forces Medical Command)

It is a great pleasure for me to co-host the 6th Pan-Pacific Trauma Conference with the Korean Society of Traumatology and to invite trauma experts in the Pan-Pacific region.

Armed Forces Medical Command, under close collaboration with the Korean Society of Traumatology, has been putting its utmost effort in enhancing the trauma-treating capabilities by co-hosting the combined symposium and Pan-Pacific Trauma Conference. As a result, we have newly established the Medical Air Evacuation Corps for the rapid evacuation of emergency patients and trauma patients, opened the Medical Emergency Operation Center which fulfilled the system of making prompt and timely decisions and measures regarding the on-site emergency treatment/evacuation and decisions made at the medical facilities.

Currently, the globe has confronted with diverse threats including numerous terrorisms and mass disasters. In particular, the Pan-Pacific region is faced with frequent natural disasters such as earthquake, volcano eruption and typhoons. Also, not only numerous terrorist threats are existence to us, but the size of such threats surpass the capacity of sole institution which all makes the flexible and active collaboration among relative institutions inevitable and also for the safety of citizens and the country, it is highly desirable.

In this point of view, I believe it will be a great opportunity to reinforce the mutual collaboration system that achieves the common goals. Particularly, as this year's conference is attended by not only experts in the Pan-Pacific region but also by experts of traumatology from outside the Pan-Pacific region to broaden the academic exchange, it will be a beneficial occasion for all and I am expecting it to play a great role in both military medicine and the development of military medicine.

BG Jong Seong Ahn
Commanding General
R.O.K. Armed Forces Medical Command

REGISTRATION

• Deadline for Pre-Registration: **16 March 2018**

• Pre-congress Workshop

	Pre-registration only
9 th NICE Course	USD 100
8 th TREE Course	USD 200
2 nd MERIT Course	USD 200

**The Pre-congress workshop programs are Independent, so it is available to register, regardless of main program registration.

**Onsite registration is not allowed.

• PPTC Main Program

Profession	Membership	Pre-registration	On-site Registration
Professor (교수, 전문의) PPTC Faculty (Invited Speaker, Moderator and Panelist) (초청연자, 초청좌장, 초청패널리스트)	KST Member (대한외상학회 정회원)	USD 300 (KRW 300,000)	USD 400 (KRW 400,000)

"WIND OF CHANGE"

PPTC 2018

6th Pan-Pacific Trauma Congress

Mar 29 (Thu.) - 31 (Sat.), 2018
Busan Port International Exhibition & Convention Center, Busan, Korea

Important Dates I

Deadline for Pre-Registration: **16 March 2018**

WELCOME MESSAGE (Korean Society of Traumatology)

As a Chairman of the board of directors of Korea Society of Traumatology, I deeply appreciate all the participants joining this 6th Pan-Pacific Trauma Congress to be held in Busan, Korea, from 29 to 31 March 2018.

For the last few years, we have put our whole effort in establishing a high-level trauma system, good trauma education program, and a good co-operation system between civil and military trauma division, and I appreciate all the efforts made by the members of our society.

However, there are still a lot of problems to be solved, which can affect not only the independence of trauma system, but also the identity of trauma surgeons. And I truly believe that these problems can only be solved by the discussion and co-operation between us.

Thus, we are gathered here to make a better understanding of each other, and to set a higher standard of treatment for our patients. And these efforts will surely result in higher chance of survival in our patients, and eventually, better performance of our trauma centers. Also, we will find the best way to reduce the incidence of trauma, which will improve the overall performance of Korea.

I am convinced that this meeting will make a great success, and I hope all of you to enjoy this meeting.

Best regards,

Hyun Min Cho
Chairman, Board of Directors
Korean Society of Traumatology

ORGANIZATION

Korean Society of Traumatology (KST)
